### GRADE 11 FOCUS WEEK

Day 1: We started the week off in the Barnyard, being taught the 'Seven Habits of Highly Effective Teens' by Hannah and Maggie Baleta. We headed to Thaba Metsi for an afternoon session of obstacle courses and team building exercises.

Day 2: Mrs Marianna Seyfert spent the day with us, discussing different career options. We did various self-discovery tests, which helped us to see what we wanted from a career.

Day 3: We spent the day planning what we would like to achieve as Matrics in 2012. We also discussed the Hatchery weekend and concert for next year.

Day 4: Mrs Doreen Lemmer taught us the Five Love Languages - which one we each 'speak' and how to identify the love languages of others.

Day 5: We completed various service projects around the school: marking running routes in the forests, sanding and repainting picnic benches and gardening around the campus. A big "thank you" to Mrs Maree for her generous donation that included a water-feature outside Founders boarding house!

Overall, it was a very beneficial week for us all and helped a great deal in preparing us as leaders for 2012. Thank you to Mrs Painter and all the other teachers who played a role in making the week a success.
